

# POWERSHADE<sup>®</sup> AUTO

**STRATEGIC** MICROGRID

Smart Energy Where the World Needs It

# TRADITIONAL PRODUCT LINES – POWERSHADE® AUTO

---

## PowerShade®

### Markets & Applications

Retail malls and power centers, office parks, manufacturing sites, military installations.

### Features & Benefits

Protects assets, lowers costs, improves satisfaction.

- Pre-engineered microgrid solution
- Generates more energy per parking/service/storage lot than any other application.
- Batteries enable 24/7 power management.
- Protects covered equipment
- Disguises covered military equipment
- Creates comfortable service environments and higher quality work spaces

# POWERSHADE<sup>®</sup> AUTO

---

Patented Pre-Engineered systems designed for large, contiguous parking shade structures that do not require an architecturally designed project delivered using the design build method.

Example applications include RV Storage Lots, Standardized Office, Commercial and Retail Parking Sites. Particularly well suited for repetitive retail locations, large box, grocery, call centers (Offices, Call Centers, Retail)

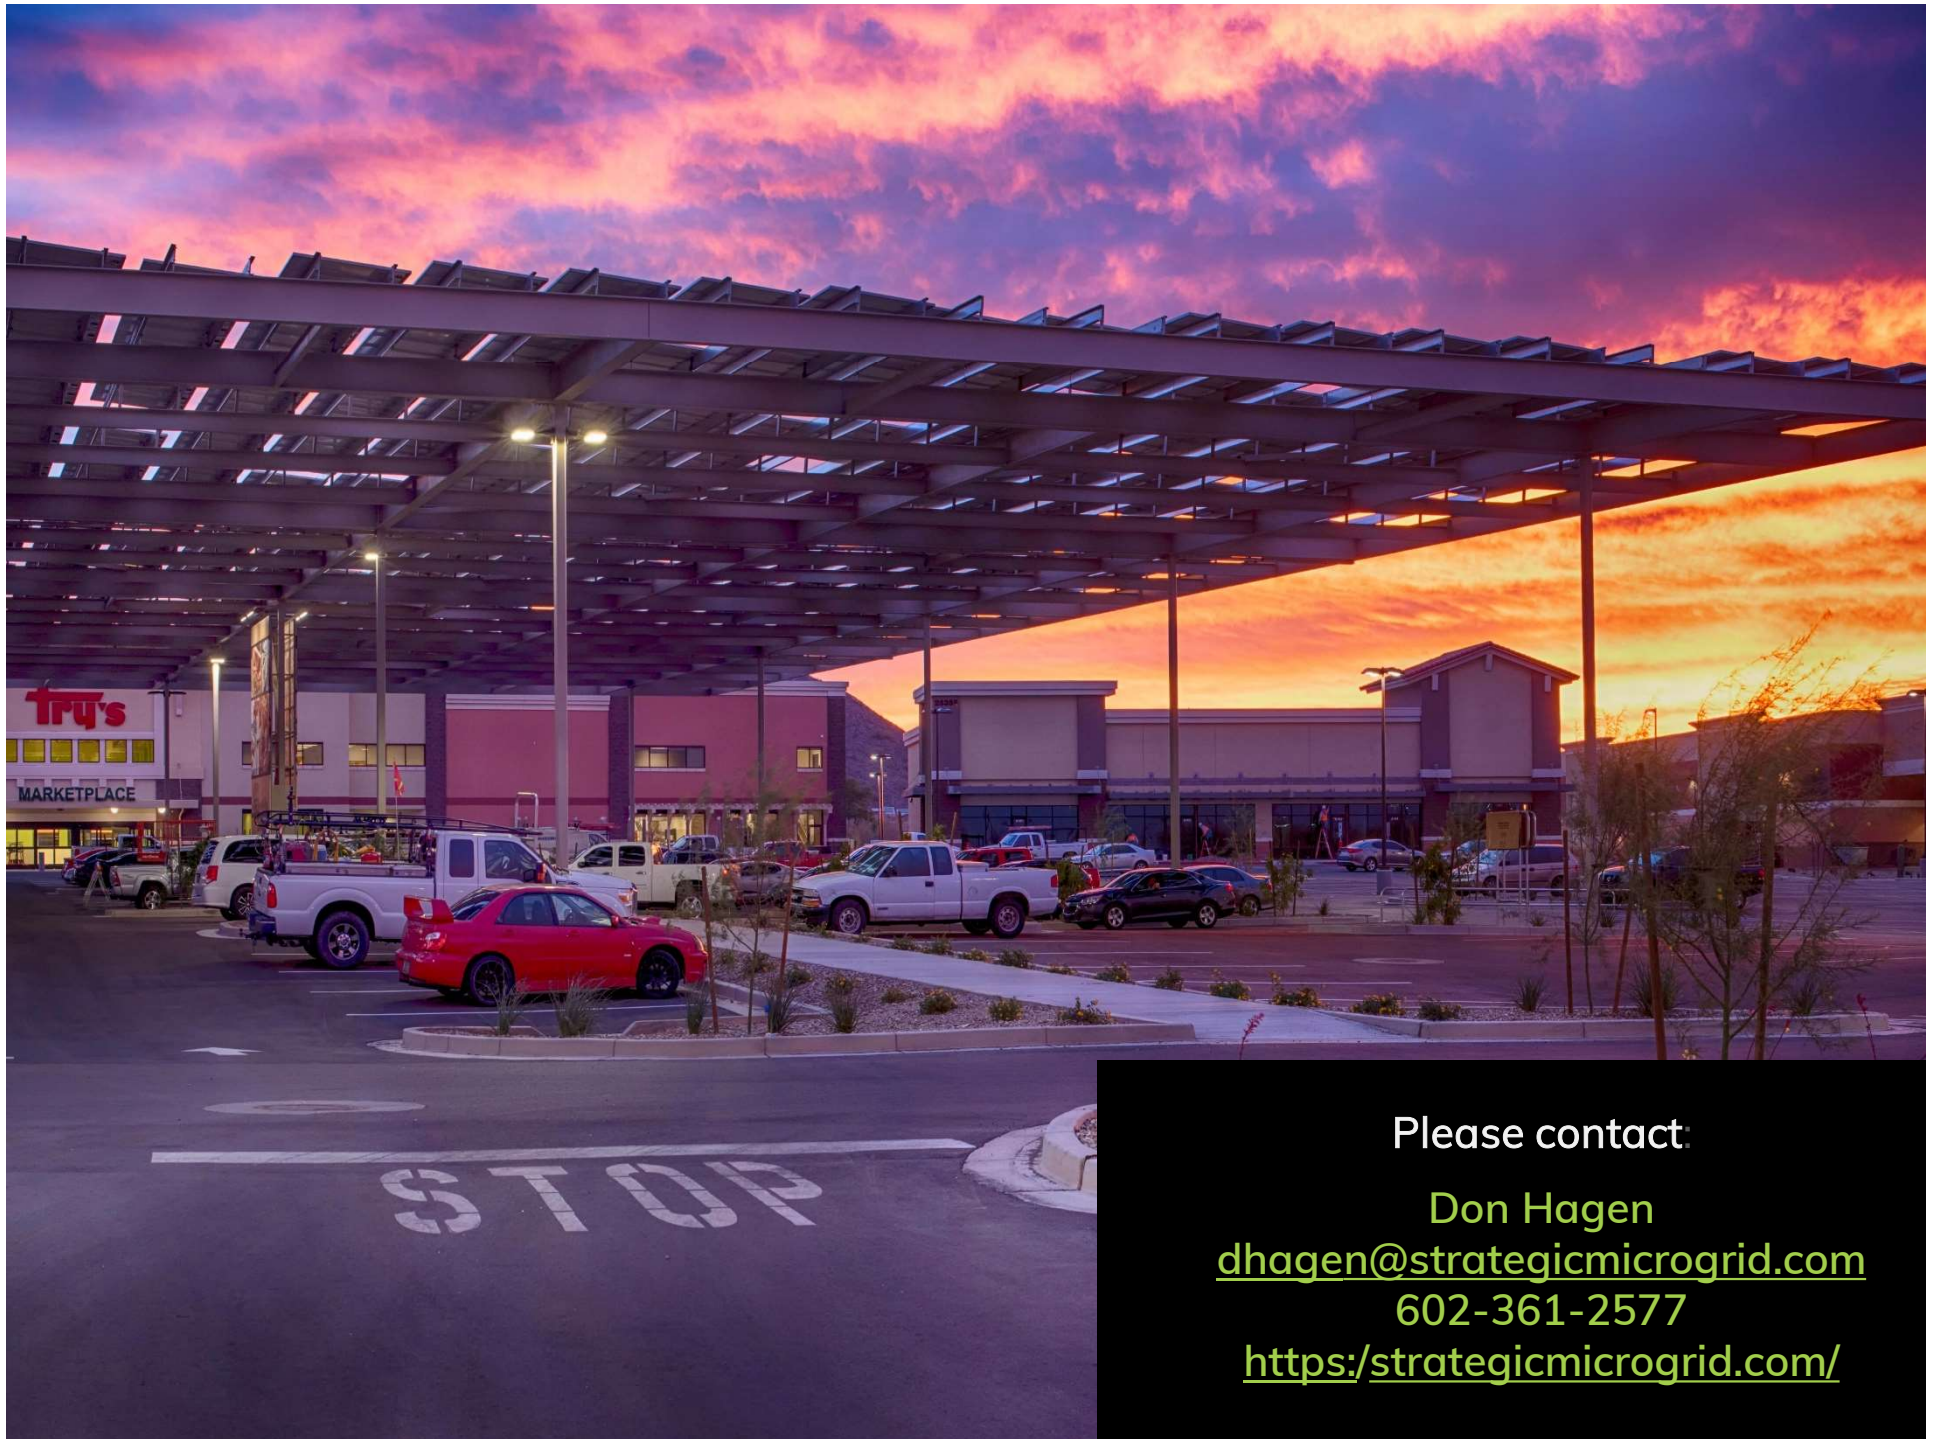

Reduced delivery time using reference assemblies as the basis for design and reduced cost.
